All you need to know about:

Degree Audit Reporting System (DARS)
The Degree Audit Reporting System, or DARS, automatically matches the courses you have completed with the requirements of your academic degree program, resulting in a report showing all satisfied and unsatisfied requirements towards graduation.

Provides a real-time snapshot to confirm:
- which classes to select in future terms
- whether the classes you just registered for are counting where you hoped they would

Supplements the information on your eAdvisor® tracking tool, Major Map, and academic advisor’s advice.

Your **official** guide to degree progress and completion. Your degree audit will be reviewed by the ASU Graduation Office to confirm you’ve met all your degree requirements before they mail your diploma, so taking the time to understand it is well worth your effort.

**You can request a DARS report 24/7**
How to run a DARS Report

STEP ONE

- Log into your My ASU page (http://my.asu.edu)
- Locate the My Programs and eAdvisor® box on the right side of the page and click on “My Progress Reports (DARS)”
- Select “Degree Audit (DARS)”
STEP TWO

On the page that opens, click on “Request New Degree Audit.” This will allow you to view the most up-to-date snapshot of your progress.
How to run a DARS Report

STEP THREE

- A default program will be listed on the next page, corresponding to your declared major.
- Click the “Submit a New Audit” button.
How to Run a DARS Report

- **STEP FOUR**
  - When you request a new audit you’ll be taken back to your My Degree Progress page. After a minute or two, the page will automatically update to display your newly-requested DARS report in the “Degree Audits Completed” table.
  - Click “Open Audit” in the first column to view your DARS report in a new window.
Understanding your DARS Report

- THERE ARE FIVE SECTIONS ON THE DARS REPORT:
  - **Section One: Numbers**
    - Details the minimum number of credit hours that are needed to complete your degree.
    - Shows repeated courses and removal of duplicate credit, if any.
    - Explains the requirement for graduating with academic recognition.
    - *This section ends with your ASU GPA.*
  
  - **Section Two: First Year Composition and General Studies**
    - First Year Composition requirements as described
    - A minimum of 35 semester hours of approved General Studies courses, as detailed in the ASU General Catalog ([https://catalog.asu.edu/ug_gsr](https://catalog.asu.edu/ug_gsr)).
    - Speak with your advisor to learn the most efficient way to work through these courses, as it may be possible to use the same class for your major and for general studies (i.e., double dipping).
    - *This section ends with the “Awareness Areas.”*
Section Three: CLAS graduation requirement

Students pursing a BS are required to complete the CLAS Science & Society requirement.

Students pursuing a BA have a second-year language requirement to fulfill.

BS DEGREE REQUIREMENT - SCIENCE AND SOCIETY
College of Liberal Arts & Sciences

Select courses from the list of approved courses available at: https://clas.asu.edu/advising-and-academic-services/science-and-society
(take spaces out of url when pasting in address line)

NOTE: Students may not use Science and Society courses to fill any SB, HU, SQ or SG requirement.

NOTE: Only one course may be used concurrently in a major, minor or related field.

NOTE: At least one course must be upper division.

NOTE: Between the two courses, all three learning goals must be filled in order to complete this category.

BA DEGREE REQUIREMENT - SECOND LANGUAGE
College of Liberal Arts & Sciences

NOTE: Grade of C (2.00) or better required.

---> NEEDS: 1 SUB-GROUP
- 1) CLAS Language Proficiency through the Intermediate level required (202 level or higher for most - consult University catalog for specific language)
Understanding your DARS Report

- **Section Four: Your Major**
  - This is where you'll see the classes that are required for your major.
  - Connect with your advisor to gain a thorough understanding of these courses.
  - *This section ends with the Related Area courses specific to your major.*

- **Section Five: Electives**
  - *This section begins with “OPT ELECTIVES: Courses not used to meet specific requirements.”*
  - All majors have room for elective courses, which are detailed at the bottom of the DARS.
  - It is best to connect with your advisor to learn how many electives you will need.
Your goal is to turn the red “X”s on the left side of the DARS report into green check marks, so train your eyes to go to the red text and attend to the requirements appearing there.

If a requirement in any of the four sections is unfulfilled, you will see a red X.

If a requirement is being met by a course you are currently enrolled in, you will see a hollow green check mark with an “IP”, indicating the course is in progress of being completed.

If a requirement has been met, you will see a solid green check mark, which is the ultimate goal.

Once you have all solid green check marks running up and down the left side of your audit, you can apply for graduation. Congratulations!
